

TGR-WRT SNOW & ICE DRIVING EXPERIENCE

Passion for driving through motorsport.

/ THE CARS

Offering thrills for everyone whether you're experienced or new to winter driving.

You'll learn four-wheel driving techniques, enhance your driving skills on a low-friction surface and put your inner racer to the test.

Drive a new original GR Yaris with the latest technologies such as the GR-FOUR sports all-wheel drive system and powerful 1.6-liter three-cylinder turbo engine.

Tailormade experiences featuring different GR models are available upon request.

 3 Cyl. Turbo engine

 280 hp

 All-wheel drive

 3mm spike tyres

 Manual & Automatic transmission available

THE TRACK

4-8 different tracks

0.5-2.5km length

Single car/track use

Set on frozen lakes close to Kuusamo in northern Finland, our tracks provide an expansive and safe environment for ice driving.

Meticulously maintained to ensure a smooth and challenging surface.

Various configurations catering to both beginners and experienced drivers.

A unique and exhilarating opportunity to test your skills on specially prepared ice tracks.

/ FULL DAY ARCTIC ADVENTURE

/ INDIVIDUAL PROGRAMME

Looking for more driving fun or the ultimate Finnish winter experience? We offer tailor-made solutions to create the ice and snow adventure of a lifetime!

One or two days of driving on our well-maintained ice tracks to improve your drifting skills in multiple GR models are possible.

Individual timings

Lots of track time with the GR Yaris

Combine with a full day at the controls of a snowmobile exploring Finnish nature.

Test your fishing skills on the frozen lake or feel the energy of a pack of huskies pulling a traditional sledge through the beautiful forests of northern Finland!

Snow and ice activities at your convenience

/ FUEL CONSUMPTION & EMISSIONS

Toyota GR Yaris 1.6I (WLTP): Fuel consumption combined: 8.7 – 9.5 l/100 km;
CO₂ emissions combined: 197 – 215 g/km; CO₂ class: G; Status 04/2024

Errors and omissions excepted.

All new vehicles offered by Toyota are type-approved according to WLTP. Official NEDC values derived from the WLTP values will no longer be available for new vehicles after 1 January 2023 and can therefore no longer be specified.

If the values are given as ranges, these do not relate to a single, individual car and do not constitute part of the offer. They are intended solely as a means of comparing different types of vehicle.

Extra features and accessories (attachments, tyre formats, etc.) can change relevant vehicle parameters such as weight, rolling resistance and aerodynamics and, in addition to weather and traffic conditions as well as individual handling, can affect the fuel consumption, energy consumption, CO₂ emissions, range and performance values of a vehicle.
